## EDUCATION

---

### University of Toronto

Sept 2021 – Apr 2026

Bachelor of Applied Science (B.A.Sc) in Computer Engineering + PEY Co-op  
*Intended minors in Artificial Intelligence and Robotics*

## SKILLS

---

**Programming/Software:** Python, C, C++, System Verilog, ARM-A9 Assembly, Quartus/ModelSim, MATLAB

**Web Development:** JavaScript, CSS, HTML5, Express, React, PHP, Webpack, NodeJS

**Databases:** Microsoft Access, SQL, MongoDB

**Task Automation:** BASH/PowerShell scripting

## PROFESSIONAL EXPERIENCE

---

### Engineering Summer Student

May 2023 – Aug 2023

*CANDU Energy-Member of the SNC Lavalin Group, Mississauga, ON*

- Collaborated with 6 admins to architect a tooling database, projected to support major domestic and international projects in retubing nuclear reactors
- Automated Excel report generation with Python, Pandas, and OS, boosting productivity
- Innovatively designed PowerShell-driven EXE launchers, enhancing database startup speeds by 50%
- Optimized database SQL queries and code structure, resulting in 70% decrease in processing time
- Developed a dynamic item-transfer feature by leveraging SQL's update, delete, and append capabilities
- Initiated and developed a PowerShell-based software to perform daily automatic backups after identifying a crucial need
- Presented solutions to database admins and constructed a comprehensive manual for seamless knowledge transfer
- Liaised with 40 employees, guiding them on efficient and thorough entry into the qualification database, ensuring tasks were completed in a timely fashion
- Facilitated and led training for 10 technicians on using automated cable testing for company-specific connectors

## PERSONAL PROJECTS

---

**CV-Maker:** An interactive CV-Maker built using React and Vite that allows users to create a resume based on information they enter, as well as save and delete entries as required: [CV Maker](#)

**Sports League Database:** A CRUD application created using Express and MongoDB that allows a user to create, delete, and update sports/coach/players/team data base objects, as well as upload images: [Intramural Manager](#)

**Weather Watcher:** A website built with vanilla JavaScript, HTML, CSS, and Webpack that allows a user to search for a country or city, then be returned the daily and hourly forecast for that location: [Weather Watcher](#)

## ADDITIONAL EXPERIENCE

---

### Specialty STEM Camp Leader

May 2022 – Dec 2022

*City of Toronto, Toronto, ON*

- Designed and followed detailed program plans to lead and supervise children through STEM-themed activities.
- Thoroughly documented incidents and communicated respectfully and professionally with parents, coworkers, and senior staff to prevent and resolve conflicts.
